

Building a Form with Bootstrap

Mosh Hamedani

programmingwithmosh.com @moshhamedani

```
<form>
  <div class="form-group">
    <label>
      <input class="form-control">
    </div>
    ...
  </form>
```

Bootstrap Forms

Summary

Bootstrap

- Modern look and feel
- Responsive

View Model Pattern

- Provides clean separation between UI and domain
